### Alcohol & Drug Facilitated Sexual Assault Investigations

*Date: Monday, June 19, 2017*

*Time: 8:30 a.m. to 4:30 p.m.*

*Location: UConn Health Center P.D., Farmington, CT*

*Classroom #EG-052 Academic Research Bldg., Park in Garage 3*

This one day seminar is geared for the first responding officer, supervisor or detective who finds himself in the position of *first contact* with an individual who has been the victim of an attempted or completed sexual assault. The initial *first contact* with the victim, witness or suspect is critical to a successful prosecution. Understanding *best practices* for these types of investigations, at the first level of contact, will help the responding officer, supervisor or detective identify key aspects of the case, stabilize the scene and initiate the investigation. It will also help them to understand how to be successful with this information in the courtroom.

The seminar will include classroom lecture, audio/video presentation, case study and group work, if time permits. Students will receive six CT POST credits for this seminar.

*"Chris has over 22 years experience in a major New England State Law Enforcement Agency where he holds numerous law enforcement instructor certifications. Most notable is his dynamic presentation style, "real world" experience and strong desire to get the best information to the cops working the streets."*
